

### Objective

IAM aims to ensure the safety of food items in food delivery service through technical exchanges and interactions about food safety knowledge, thereby preventing outbreaks of foodborne diseases.

### Target group

Workers rendering delivery service for online food delivery platforms

### Duration

1 hour

### Content of the talk

Case study covering the following:

1. Stipulation of "Food Safety Law"
2. Duties and responsibilities of online food delivery platforms
3. Improvement of food safety management
4. Important notes for picking up and checking food delivery
5. Time and temperature control during food delivery
6. Cleaning and maintenance

### Enquiry and booking

The application form for booking can be downloaded from the thematic webpage of "Food Safety Talk for Takeaway Delivery Service" on the website of "Food Safety Information" ([www.foodsafety.gov.mo](http://www.foodsafety.gov.mo)). Completed form can be submitted by fax (8296 1234). For enquiry, please call 8296 1242 or 8296 1231 during office hours.
